Assembly Manual

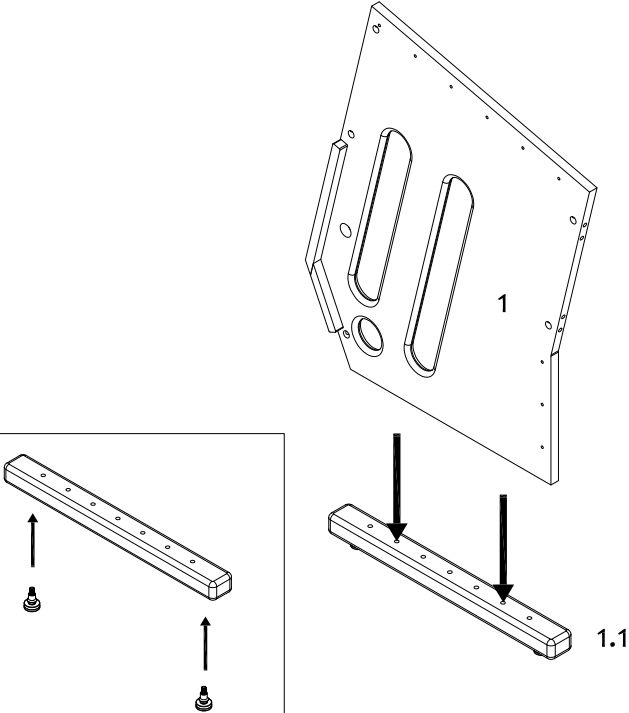

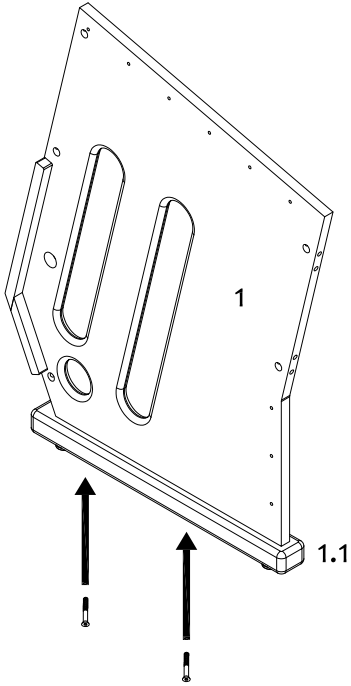

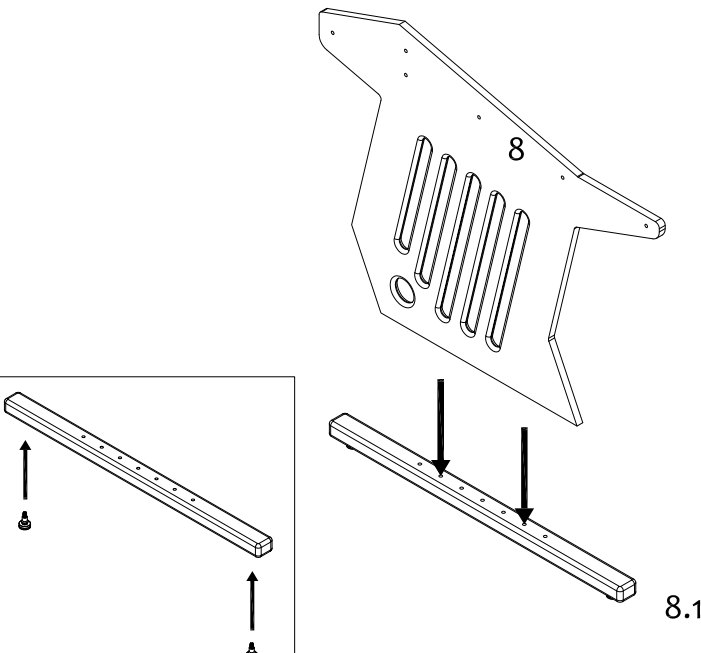

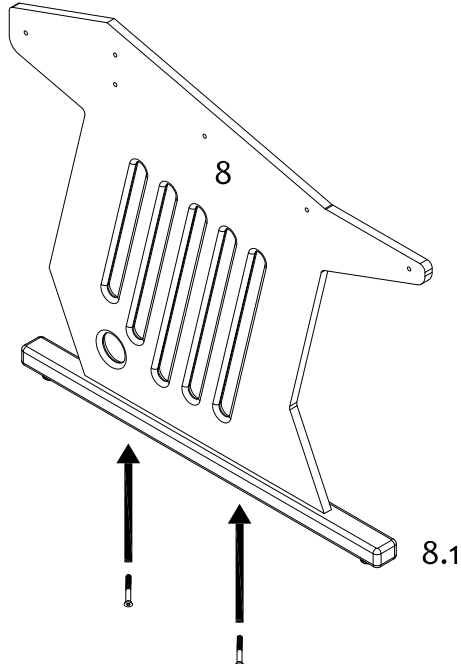

Assembly Manual

Unpack the parts carefully (do not use a cutter on the foam wrapping, as you might damage the surface) and set up so that you can see the part numbers clearly. In the big box you should find a small cardboard box with all the screws and bolts for assembly.

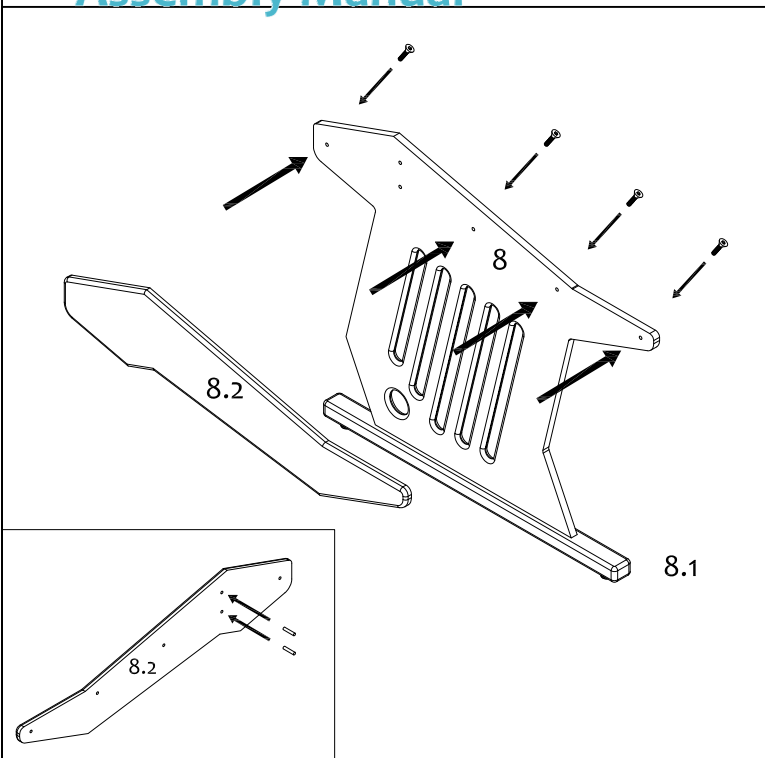

Here you have an exploded view of the whole desk and how it is supposed to come together. We use high quality furniture assembly components from renowned EU manufacturers. Please, never use force. These parts should come together easily, in case of doubt check the manual again or contact support.

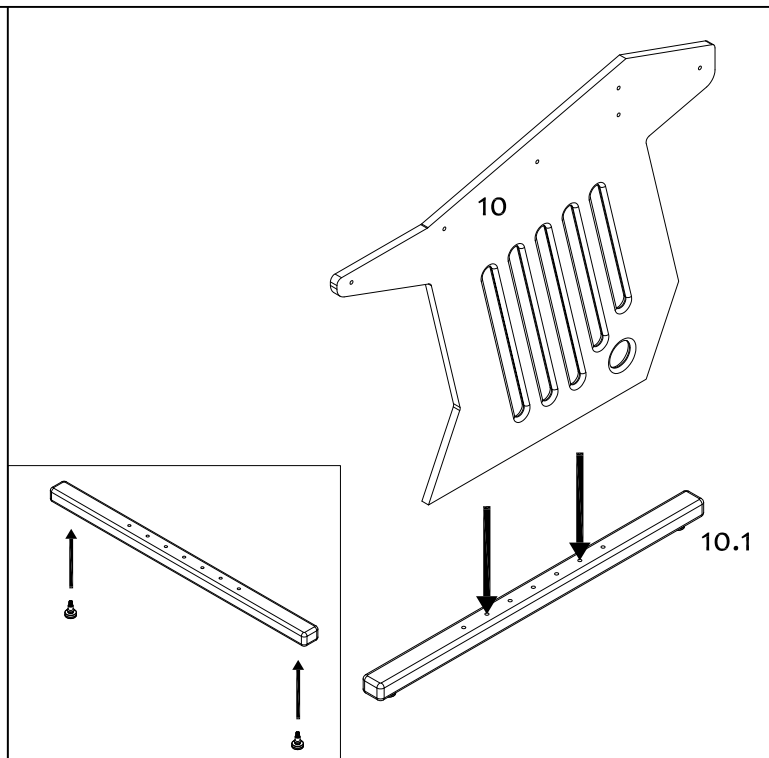

Assembly Manual

	
STEP 1	STEP 2: fix piece N° 1.1 with screws A
	
STEP 3	STEP 4: fix piece N° 8.1 with screws A

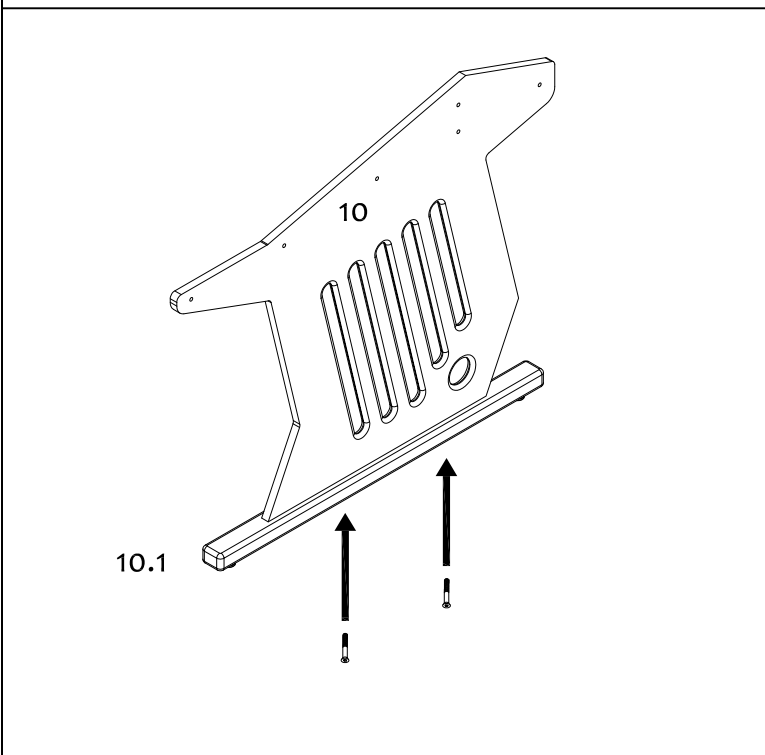

Assembly Manual
